CERTIFICATE OF REGISTRATION: ISO/IEC 27001:2022

Information Security Management System (ISMS) - IBM Bob Platform

Certificate Number	ISMS-IBM-BOB-99281
Certified Entity	IBM Corporation - Hybrid Cloud & AI Document Systems
Standard	ISO/IEC 27001:2022 (Information Security, Cybersecurity & Privacy)
Issuing Registrar	BSI Assurance UK Limited (ANAB & UKAS Accredited)
Issue Date / Expiry	March 15, 2024 / March 14, 2027 (Annual Surveillance Audits)

Scope of Registration

The Information Security Management System (ISMS) covers the architecture, software development, cloud infrastructure hosting, data ingestion pipelines, Model Context Protocol (MCP) connectors to Box Content Cloud, and global 24/7 technical support for the **IBM Bob Enterprise Platform**.

Annex A Control Implementation Highlights

Annex A Domain	Standard Control Description	IBM Bob Technical Implementation
A.5 Organizational Controls	Policies for information security, threat intelligence, supplier relationships.	Formal quarterly ISMS reviews; strict third-party vendor risk assessments.
A.6 People Controls	Screening, background checks, security awareness training.	Annual mandatory cybersecurity training; background screening for 100% of personnel.
A.7 Physical Controls	Physical security perimeters, equipment protection.	Hosted exclusively in Tier III+ / Tier IV enterprise datacenters with biometric controls.
A.8.20 Network Security	Network controls, segmentation, security of network services.	Zero-trust network architecture; private VPC endpoints; strict egress firewall rules.
A.8.24 Cryptography	Cryptographic controls and key management policies.	AES-256 for all stored data; TLS 1.3 in transit; automated envelope key rotation.
A.8.28 Secure Coding	Secure software development life cycle (SSDLC).	Automated static code analysis (SAST), software composition analysis, and container image scans.
A.8.31 Separation of Envs	Separation of development, testing and operational environments.	Physically and logically isolated VPC environments; zero customer data in test environments.
