CASE STUDY: TOP-5 GLOBAL BANK ACCELERATES COMMERCIAL ONBOARDING & RFP RESPONSES BY 85%

Transforming 12M+ Unstructured Documents into Real-Time Lending Intelligence with IBM Bob & Box

Client Profile	Top-5 Global Commercial & Investment Bank ($2.8T Assets Under Management)
Challenge	48-hour document intake backlog, manual metadata re-entry into Salesforce, complex RFP turnaround delays
Deployed Solution	IBM Bob Enterprise + Box Content Cloud MCP Ingestion
Deployment Scale	4,500 Underwriters, Credit Analysts & RFP Proposal Managers
Key Outcome	Turnaround reduced from 48 hours to 15 minutes; $4.2M annual operational savings; 100% audit accuracy

1. The Business Challenge

The client's commercial lending division received over 15,000 onboarding packages monthly—each consisting of 50 to 200 pages of W-9s, Articles of Incorporation, audited balance sheets, and regulatory disclosures stored on legacy file shares. Analysts spent up to **48 hours per package** manually reviewing files, extracting financial metrics, and re-keying data into Salesforce.

2. The Solution: IBM Bob + Box Content Cloud

The bank deployed **IBM Bob** integrated with **Box Content Cloud** via MCP. Bob autonomously monitors incoming customer folders, automatically classifies documents, extracts required loan covenants, cross-checks borrower financials against credit policies, and generates complete, citation-backed RFP responses and underwriting memos.

3. Measurable Business Results

Operational Metric	Before IBM Bob	With IBM Bob + Box	Improvement
Average Onboarding Cycle	48 to 72 hours	12 to 15 minutes	85% Faster
RFP Response Generation	14 business days	2 business days	86% Faster
Data Extraction Accuracy	91.2% (manual entry errors)	99.4% (deterministic ground)	+8.2% Accuracy
Regulatory Audit Prep Time	3 weeks per quarter	Instant 1-click audit trail	95% Reduction
Annual Cost Savings	Baseline operations	$4.2 Million saved	ROI in 4.5 months
