SUCCESS STORY: OMNI-CHANNEL RETAILER STREAMLINES 8,000+ SUPPLIER CONTRACTS

Automated Vendor SLA Auditing and RFP Procurement with IBM Bob & Box

Client Profile	Fortune 100 Omni-Channel Retailer (2,200 stores, $45B annual revenue)
Challenge	Managing 8,000+ disparate supplier MSAs, inconsistent SLA penalties, and manual vendor procurement RFPs
Deployed Solution	IBM Bob Enterprise + Box Shield DLP integration
Impact	70% faster vendor onboarding, $1.8M in recovered vendor SLA credits, 100% contract compliance

1. Background & Pain Points

The retailer managed over 8,000 active vendor contracts across multiple regions. Because supplier agreements were stored in unstructured PDF formats across different Box folders, procurement officers struggled to enforce rebate tiers, freight terms, and delivery SLA penalties.

2. Solution & Impact

With IBM Bob connected to Box, the retailer ran automated cross-contract audits. Bob synthesized terms across all master agreements, identified rebate thresholds, and flagged non-compliant shipping chargebacks, recovering $1.8M in the first 90 days.
