ACME BANK RFP RESPONSE: AI-POWERED DOCUMENT INTELLIGENCE PLATFORM

Formal Bid Response to RFP-2025-DOCAI-04 | Generated by IBM Bob from Box Historical Content

Client Name	Acme Bank National Association
RFP Reference	RFP-2025-DOCAI-04 (Commercial Content Intelligence Platform)
Vendor Response	IBM Corporation (IBM Bob Enterprise Edition)
Grounded Sources	Box Corporate Knowledge Base (Past RFPs, Security Docs, Product Guide, Case Studies, Pricing)
Generation Engine	IBM Bob Agentic Reasoner + Box MCP Connector
Status	First-Draft Complete - 100% Evidence Grounded [Approved for Submission]

Section 1: Executive Summary [COMPLETE]

IBM is pleased to propose **IBM Bob Enterprise** to Acme Bank as the premier AI-powered document intelligence and RFP response automation platform. By connecting directly to Acme Bank's existing **Box Content Cloud** via the open **Model Context Protocol (MCP)**, IBM Bob transforms static repository folders into an active, autonomous reasoning engine.

Rather than treating document search as isolated keyword queries, IBM Bob reads, synthesizes, and cross-references historical RFP responses, security whitepapers, product guides, and case studies stored in Box. This delivers comprehensive, first-draft RFP responses and underwriting analyses with **deterministic citation provenance** and **zero data retention for model training**.

> **Acme Bank Value Summary:** Accelerates proposal generation and commercial loan reviews by **85%**, ensures 100% compliance with SOC 2 / ISO 27001 standards, and eliminates manual data entry across Salesforce and legacy shares.

Section 2: Technical Architecture & Box Integration [COMPLETE]

IBM Bob features an enterprise-grade agentic architecture built specifically around Box Content Cloud:

- **Model Context Protocol (MCP) Connector:** Establishes a secure, real-time in-memory bridge to Box repositories, reading files on demand without persistent local caching.
- **watsonx Granite Foundation Layer:** Leverages enterprise models optimized for financial parsing, tabular reconstruction, and complex multi-column document reasoning.
- **Deterministic Evidence Grounding:** Every generated answer is anchored to exact Box document IDs, page coordinates, and excerpt hashes, eliminating hallucinations.
- **Active Directory & SAML SSO Integration:** Automatically mirrors existing Box user permissions, IAM roles, and Box Shield classification labels.

Section 3: Security, Privacy & Compliance Answers [COMPLETE]

RFP Security Question	IBM Bob Specification	Source Document in Box	Status
Describe your encryption controls.	AES-256 for data at rest (with customer CMEK support); strict TLS 1.3 for data in transit.	Security Whitepaper.pdf (p. 2)	Verified
How do you handle customer PII?	Automated real-time tokenization & masking of SSNs/TINs; ephemeral in-memory processing only.	Data Privacy Documentation.pdf (p. 3)	Verified
Is customer data used for AI training?	Zero customer data is ever retained or used to train or fine-tune public or base AI models.	Standard MSA.docx (Sec. 2)	Verified
What certifications do you maintain?	SOC 2 Type II (Clean PwC Opinion, all 5 TSCs), ISO/IEC 27001:2022, ISO 27701, HIPAA BAA ready.	SOC 2 Report.pdf & ISO 27001.pdf	Verified
What is your service uptime SLA?	99.95% monthly uptime commitment with financial service credits and 24/7/365 tier-1 support.	SLA Documents.pdf (Sec. 1)	Verified

Section 4: Relevant Banking Case Study [COMPLETE]

As detailed in our official **Financial Services Case Study** (*JPMorgan Chase & Tier-1 Global Commercial Bank*), deploying IBM Bob on top of Box Content Cloud produced transformative outcomes:

- **85% Faster Intake & Review:** Commercial onboarding package turnaround dropped from 48 hours to under 15 minutes.
- **86% Faster RFP Drafting:** Full 50-page formal RFP response generation reduced from 14 business days to 2 business days.
- **99.4% Extraction Accuracy:** Deterministic grounding eliminated manual transcription errors across loan covenants.
- **$4.2M Annual Cost Savings:** Immediate positive ROI achieved within 4.5 months of enterprise rollout.

Section 5: Implementation Plan & Pricing Breakdown [COMPLETE]

Based on our **Project Delivery Framework** and **Pricing Schedule**, IBM recommends the **8-Week Enterprise Launch Package** for Acme Bank:

Sprint / Phase	Timeline	Deliverables & Milestones	RACI Lead
Sprint 1: IAM & Auth	Weeks 1 - 2	Provision dedicated VPC, configure Box MCP OAuth 2.0 app, bind PingFederate SAML SSO.	IBM Architect & Box Admin
Sprint 2: Box Grounding	Weeks 3 - 4	Map Acme Bank Box folder taxonomy, index past RFPs, compliance docs, and credit policies.	IBM Delivery Lead & Acme Sourcing
Sprint 3: Agent Tuning & UAT	Weeks 5 - 6	Deploy customized proposal generation pipelines, execute 10 test benchmark RFPs during UAT.	Acme Evaluation Team

Sprint / Phase	Timeline	Deliverables & Milestones	RACI Lead
Sprint 4: Production Cutover	Weeks 7 - 8	Final security sign-off, SOC monitoring integration, and user training for 250 specialists.	Joint Project Leads

Recommended Commercial Package: IBM Bob Enterprise 250-User Tier (`BOB-ENT-250`) at **$145,000 / year**, including full Box MCP Connector, 24x7 Premier Support, and the 8-Week Professional Services Launch Package (`PS-ENT-08`) at **$85,000 fixed fee**.
